## **INTRODUCTION**

### **Purpose of the Estimates**

The 2018-2019 Estimates set out the details of the operating and capital spending requirements of Ministries for the fiscal year commencing April 1, 2018. These Estimates constitute the Government's formal request to Parliament for approval of the amounts required in support of budgetary spending sought through Appropriation Bills.

### **Estimates Accounting Policies**

In order for the Budgetary information to be consistent with the accounts recorded during the transition from the cash to the accrual basis of accounting, it is necessary that the Estimates of Revenue and Expenditure be prepared on a similar basis. Consequently, from financial year 2007 - 2008 the Estimates of Revenue and Expenditure were prepared on an accrual basis, comprising both cash and non-cash transactions.

### **Format of The Estimates**

The Estimates for each Ministry consist of Programs and Sub-programs, categorized as Non-Statutory Recurrent Expenditure, Non-Statutory Capital Expenditure and Statutory Expenditure.

Non-statutory recurrent expenditure relate to the recurrent expenditure of the ministry and/or department as it carries out its normal operating activities. Under this category of expenditure provision is made for Depreciation and Bad Debt Expenses. Non-statutory capital expenditure refers to the acquisition costs of capital assets in excess of \$3,000 intended for use by the ministry/department over multiple financial periods, and transfer payments to be used for the purchase of capital items.

Under these categories the spending plans will be further classified by Standard Accounts e.g. Personal Emoluments, Supplies and Materials, Transfers, Maintenance of Property, etc.

Statutory Appropriations are shown separately in the Estimates and are added to the amounts to be voted to produce the Total Estimates for each Ministry/Department. Statutory Appropriations are expenditures pursuant to specific legislative authority.

### **Presentation Changes**

The layout of the Estimates was changed from 2007-2008. Changes include re-organisation of the Estimates tables, inclusion of projected accrual based financial statements with projected cash flows and new labeling of tables in keeping with the newly designed Chart of Accounts.

The overall content and underlying structure of the Estimates have however remained unchanged. Some data have been re-ordered to improve the flow of information.

Statutory amounts are shown separately following the amounts to be voted. Details of these statutory amounts are also reflected on the Standard Accounts and Item pages.

Projected spending on Assets, Liabilities, and non-cash items has also been identified in the new presentation of the Estimates.

## **Terms and Definitions Used**

### **Standard Account Codes**

The Standard Account Codes represent the level at which expenditure is forecast for the fiscal year. The amounts appropriated at this level cannot be exceeded except with Parliamentary approval. The Standard Account Codes are described below. These descriptions are intended to serve as brief outlines and should not be seen as exhaustive.

- **Personal Emoluments**  
Includes salaries and wages, overtime and other remuneration paid to staff, Members of Parliament and special allowances to employees including telephone and commuted travel.
- **Employer Contributions**  
Includes government's contribution to the National Insurance Scheme, Pensions, Workplace Safety benefits and other employee benefit plans.
- **Transfer payments**  
Includes grants, subsidies, assistance to individuals and non-profit organizations.
- **Supplies and materials**  
Includes the purchase of materials, supplies, furniture, machinery and equipment costing less than the capitalization threshold of \$3,000.
- **Transportation costs**  
Includes reimbursable travel costs to officers who travelled on government business, cost of relocation of offices, and baggage expenses.

## **Assets and Liabilities**

Assets and Liabilities are balance sheet accounts. These items will also require an Appropriation in the Estimates for the amount to be expended in the year in which the acquisition of the asset occurs. Categories of assets and liabilities include the following:

### **Assets**

- ***Loans and Investments***

Includes payments to debtors under loan agreements and investment in the shares of Crown Corporations or other entities.

- ***Prepaid Expenses***

Includes payments in advance of receiving goods or services and will be recorded in a non-asset account in a future fiscal year.

- ***Capital Assets***

Includes acquisition of land, acquisition and construction of buildings, machinery, equipment and vehicles with a cost greater than \$3,000.

### **Depreciation**

The annual expense associated with the allocation of the carrying value of an asset over its service life.

### ***Liabilities***

- ***Amortization payments***

This relate to principal payments included in government's debt servicing costs.

- ***Lease payments on capital leases***
