INTRODUCTION

Purpose of the Estimates

The 2019-2020 Estimates set out the details of the operating and capital spending requirements of Ministries for the fiscal year commencing April 1, 2019. These Estimates constitute the Government's formal request to Parliament for approval of the amounts required in support of budgetary spending sought through Appropriation Bills.

Estimates Accounting Policies

In order for the Budgetary information to be consistent with the accounts recorded during the transition from the cash to the accrual basis of accounting, it is necessary that the Estimates of Revenue and Expenditure be prepared on a similar basis. Consequently, from financial year 2007 - 2008 the Estimates of Revenue and Expenditure were prepared on an accrual basis, comprising both cash and non-cash transactions.

Format of The Estimates

The Estimates for each Ministry consist of Programs and Sub-programs, categorized as Non-Statutory Recurrent Expenditure, Non-Statutory Capital Expenditure and Statutory Expenditure.

Non-statutory recurrent expenditure relate to the recurrent expenditure of the ministry and/or department as it carries out its normal operating activities. Under this category of expenditure provision is made for Depreciation and Bad Debt Expenses. Non-statutory capital expenditure refers to the acquisition costs of capital assets in excess of \$3,000 intended for use by the ministry/department over multiple financial periods, and transfer payments to be used for the purchase of capital items.

Under these categories the spending plans will be further classified by Standard Accounts e.g. Personal Emoluments, Supplies and Materials, Transfers, Maintenance of Property, etc.

Statutory Appropriations are shown separately in the Estimates and are added to the amounts to be voted to produce the Total Estimates for each Ministry/Department. Statutory Appropriations are expenditures pursuant to specific legislative authority.

Presentation Changes

The layout of the Estimates was changed from 2007-2008. Changes include re-organisation of the Estimates tables, inclusion of projected accrual based financial statements with projected cash flows and new labeling of tables in keeping with the newly designed Chart of Accounts.

The overall content and underlying structure of the Estimates have however remained unchanged. Some data have been re-ordered to improve the flow of information.

Statutory amounts are shown separately following the amounts to be voted. Details of these statutory amounts are also reflected on the Standard Accounts and Item pages.

Projected spending on Assets, Liabilities, and non-cash items has also been identified in the new presentation of the Estimates.

Terms and Definitions Used

Standard Account Codes

The Standard Account Codes represent the level at which expenditure is forecast for the fiscal year. The amounts appropriated at this level cannot be exceeded except with Parliamentary approval. The Standard Account Codes are described below. These descriptions are intended to serve as brief outlines and should not be seen as exhaustive.

- **Personal Emoluments**
Includes salaries and wages, overtime and other remuneration paid to staff, Members of Parliament and special allowances to employees including telephone and commuted travel.
- **Employer Contributions**

- **Transportation costs**
Includes reimbursable travel costs to officers who travelled on government business, cost of relocation of offices, and baggage expenses.

Assets

- ***Loans and Investments***

Includes payments to debtors under loan agreements and investment in the shares of Crown Corporations or other entities.

MINISTRY OF HEALTH AND WELLNESS

MINISTRY OF HEALTH & WELLNESS

STRATEGIC GOALS

The strategic goals of the Ministry are:

In the 21st century the challenges facing the Health Sector of Barbados are:

- (i) A demographic Shift - an aging population with over 13% over the age of 65 years. It is expected that by 2025 older persons will make up 20.4% of the population. The old-age dependency ratio of 20.7 per 100 in 2010 is expected to reach 33.3 per 100 by 2025;
- (ii) An epidemiological shift hence an increasing prevalence of non-communicable diseases (NCDs). NCDs account for 7 out of every 10 deaths in Barbados. One quarter of all adults have an NCD and another quarter are at risk (140,000 persons);
- (iii) The threat of new and re-emerging diseases i.e., Ebola; Zika; Measles;
- (iv) Injuries due to accidents and violence and the impact on service provision including rehabilitation;
- (v) Consumer demands – increasing demands for the latest in medical and care interventions;
- (vi) The high investment costs for service delivery, i.e. rapidly changing medical technologies, trained health professionals;
- (vii) A broken health infrastructure – an aging plant easily adaptable to new technologies;
- (viii) Health Financing – reduction in the percentage of government spending on health care from 55% in 2012-2013 to 51% in 2016-2017; increasing “out-of-pocket expenditure” from 39% in 2012-2013 to 43% in 2016-2017; and an overall reduction in the percentage of total health expenditure to GDP from 8.5% in 2012-2013 to 7% in 2016-2017, below the OECD standard of 9%.

The Ministry of Health and Wellness has identified four strategic goals to address these challenges, these are as follows:

- (i) Promote and protect the health of the population;
- (ii) Provide safe, quality centered services;
- (iii) Improve the performance of the health system; and
- (iv) Engage and mobilize partners in health.

- Restoration of the Carnegie Library – This is a priority of the National Restoration Campaign. This programme seeks to fulfil one of the mandates of the National Heritage Task Force and the Barbados World Heritage Committee, which is the restoration and preservation of historic buildings. This programme sets out the priority list of buildings to be restored-starting first with the Carnegie Building, then Queens Park (restored in 2017). Similarly, while the focus has been on the restoration of Eurocentric buildings, the National Restoration Campaign would be revised to reflect Barbados' cultural diversity and to reflect our indigenous people and African heritage.
- FutureSpaces - FutureSpaces will be created to increase public appreciation of art and inspire communities by commissioning six muralists (2 international, 2 regional and 2 local), to create large-scale works of public art. Proposed sites for the murals include the old NIS Building in Bridgetown, the Pine highway flyover, the ABC Highway Medium, the Main Guard, Nelson Street, the National Stadium Wall and the old Treasury Building.
- Review and Revision of the National Cultural Policy for Barbados – The current cultural policy has to be revised based on the five reasons tabled below:
 - a) The current cultural policy needs to be updated and is not empirically based. It is based on data and consultations held in 1996 and 2002.
 - b) The policy needs to be more inclusive and support the inclusion of cultural civil society organisations in the design and implementation of the cultural policy
 - c) The policy does not reflect the current global, regional and national trends and developments within the culture sector, particularly the current digital

environment and its impact on the cultural industries. The policy predates the Sustainable Development Goals and the Cultural Industries Development Act.

- d) The current policy predates the UNESCO 2015 Global Report: Reshaping Cultural Policies. This reports calls for cultural policies which support creation, production, distribution and access to diverse cultural goods and services, a cross-sectoral approach to policymaking and ensuring that State Parties support informed policymaking processes. Furthermore, the report calls for cultural policies which (1) strengthen the value chain of creation, production, distribution/ dissemination and access, (2) include measures and mechanisms other than those normally included under the remit of ministries of culture, (3) include participatory models between civil society and public sector officials to produce solid evidence for policy monitoring and impact assessment.
- e) The current policy is not time bound and does not have an action plan.
- f) The policy revision would take a phased approach. The first phase will include a full scale review of the existing policy, its gaps and developments since its creation in 2010 and the achievements coming out from it. The second phase would include training in capturing cultural data and statistics to address the issues relating to the policy not being empirically based and more importantly to strengthen the capacity of the officers in the Cultural Policy and Research Section and the Cultural Development Department of the National Cultural Foundation. This training programme can be worked out with the UNESCO Institute for Statistics. The third phase will consist of large scale national consultations in 2020 and focus group sessions to address the concerns relating to the inclusion of civil society organisations. These consultations and focus groups would be geared towards the revision of the cultural policy.

- Securing a location for the establishment National Art Gallery

2. Mainstreaming sports in national development:

- Review of the existing draft National Sports Policy which seeks to provide a new framework for the development of sport in Barbados.
- Commence preparation of a Sports Development Bill
- Pursue a development strategy that allows for increase participation in sports through the execution of a robust coaching programme in the primary and secondary school system, in various communities across the island, and through national camp programmes which include the elderly and the differently able and promote health and wellness.
- Conduct a comprehensive audit of the sports facilities inclusive of the fields and pavilions in order to measure the impact of the delivery of sports programmes.

3. Enhancing policy formulation, decision-making and capacity building in the areas of culture and sports:

- The establishment of a (built) cultural heritage database which takes into consideration places and monuments, through the OAS Cultural Heritage Project: Enhancing the Framework
- Upgrade an expansion of the Conservation lab at the Archives Department.
- Research on the next UNESCO World Heritage Site nomination “The Story of Sugar and Rum”
- The establishment of an intangible cultural heritage database through funding from UNESCO under the UNESCO 2003 Convention on the Safeguarding of Intangible Cultural Heritage (dance, language, music, food, folklore) – an example of this is the Barbados Landship.

4. Creating an enabling environment to support the development of the creative economy as an industry:

- Facilitate programming for the Decade for the People of African Descent
- Drafting of the Film and Digital Media Bill
- **Arts Barbados UK/EU:** Showcase of Barbadian Visual Arts and products in London.
- **Barbados at Americasmart Summer Marketplace:** sale of Barbadian creative products to international buyers

5. Promoting excellence in sports and creating an enabling environment to promote sports as an industry:

This would be achieved through the following agencies and units as follows:

The National Sports Council, Sporting Federations and Associations and the Barbados Olympic Association.

- Redevelopment of the National Stadium
- Support the development of elite and emerging athletes through direct financial assistance coaching and provide opportunities for competition locally and internationally
- Strengthen and enhance the capacity of the National Sports Council as the governing body for the sanctioning of Federations and Associations hosting sporting evening in Barbados.
- Provide facilities to the public for both professional and recreational sporting pursuits.
- Assist with the development of a new drive to use the natural environment (beaches, land terrain to weather) to encourage and grow the sports industry and promote sports tourism.
